ODH-Funded Program Requirements

Each ODH-funded program must submit the following data on a quarterly basis through the Subgrantee Performance Evaluation System (SPES).

Dental sealant programs are asked to report on nine different measures, if applicable:

- Target grades 2nd
- Target grades 3rd (if applicable)
- Target grades 6th
- Follow-up grades 3rd
- Follow-up grades 7th
- Short-term retention
- Medicaid billing
- Race and ethnicity
- Free and Reduced-Price Meal program

For all target grade reporting, programs are asked to provide the following data:

- Hours of sealant placement
- Students in sealant grade
- Students in grade with consent
- Students screened
- Students who needed sealants
- Students who received sealants
- Total number of teeth sealed
- Students who needed additional oral health care (e.g., restorations)
For all follow-up grade reporting, programs are asked to provide the following data:

- Hours of sealant placement
- Students screened previous year
- Students screened for follow-up
- Teeth sealed previous year
- Students who received sealants
- Newly erupted teeth needing sealants
- Teeth needing add-on sealants
- Teeth needing complete reseal
- Students who needed additional oral health care (e.g., restorations)

For short-term retention, programs are required to report the number of schools checked, the number of students checked, and the short-term retention rate. For Medicaid billing, programs are required to report the number of children receiving sealants who are Medicaid beneficiaries, the dollar amount billed for sealants provided to those children, and the amount collected.

For race and ethnicity, programs must report according to federally determined categories of race and ethnicity (i.e., Hispanic).
