

Dental Sealants at School!

Your child can get free Dental Sealants at school

With your permission, a dental hygienist will provide your child:

- A dental screening to see if sealants are needed
- Dental Sealants

Your child's sealants will be checked within one year to make sure they are still on the teeth. If needed, new sealants will be placed.

This program does not take the place of regular dental check-ups at a dental office. It is meant for children who need sealants and otherwise would not have access to these services.

Check One:

- Yes, I want my child to get sealants at school.
 No, I do not want my child to get sealants at school.
